56.5 [2.224]

Accessories

RVIM0CXHN0RA

Waterproof Plug
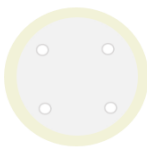

Mounting Paper

Screw B
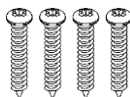

Screw C
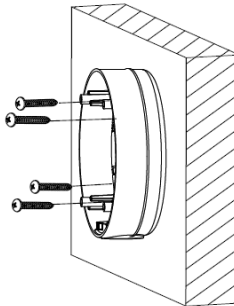

Tools
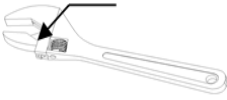

Monkey Wrench
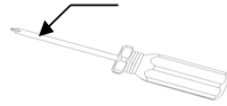

Cross Screwdriver

Hex Wrench
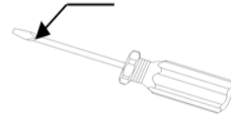

**Straight Screwdriver**

Wall Mounting

1. Paste the mounting paper to the corresponding installation position and make screw holes.

2. Hammer four screws **B** into the holes and lock the bottom cap of the junction box with screws **C** as shown below.

3. Thread the camera cable through the center of the top cover of the box and lock the camera base as shown below.
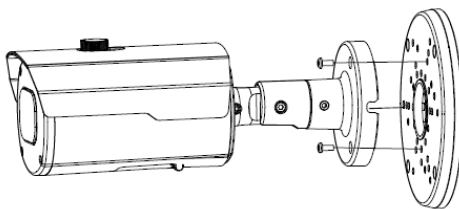

4. Connect the cable to the camera through the waterproof plug and tighten.

5. Lock the top cover to the bottom cap and adjust the camera angle to complete the installation.
